ROHITH PALIKA

B.TECH in Artificial Intelligence and Machine Learning, MLRITM
+91 9985533774 | rohithpalika01@gmail.com | Rohith Palika | RohithPalika
Khammam, Telangana - 507001, India

Professional Summary

AI/ML Engineer with hands-on industry experience in Python, Generative AI, PDF generation, email scraping, API integration, data processing, and machine learning. Currently working as an AI Trainee at Pulsus Healthtech, contributing to AI-powered solutions, PDF generation workflows, email scraping, automation, and production-oriented applications.

Experience

- **Pulsus Healthtech LLP** *Jul 7, 2026 – Present*
  AI Trainee Hyderabad, India
  - Contributing to AI-driven solutions using Python, Generative AI, APIs, and data-processing technologies.
  - Working on automated PDF generation workflows involving journal and manuscript-related content.
  - Developing email scraping and email-processing workflows for extracting and processing relevant information.
  - Integrating APIs into AI-powered applications and automation workflows.
  - Working with Pandas, NumPy, regular expressions, LaTeX, Git/GitHub, AWS, and Linux.
  - Troubleshooting PDF layout issues including unwanted blank pages, excessive whitespace, inconsistent page breaks, and template-formatting problems.
  - Contributing to bulk processing workflows designed for high-volume operational requirements.
- **Pantech e Learning** *Mar 2024 – Apr 2024*
  Amazon Web Services (MLOps) Hyderabad, India
  - Gained hands-on AWS and MLOps experience through ML model development, scalable workflows, and production-oriented MLOps practices.

Education

- **Marri Laxman Reddy Institute of Technology and Management** *Nov 2022 – Jul 2026*
  B.Tech CSE (AI-ML), GPA: 7.72 Hyderabad, IN
- **Harvest College** *2022*
  Intermediate, 60% Khammam, IN
- **V.V.C Public School** *2020*
  Secondary Education, 68% Khammam, IN

Projects

- **PDF Generation** *2026*
  Tech Stack: Python, Generative AI, LaTeX, APIs, PDF Processing, Pandas, Regular Expressions [ ]
  - Developed workflows for generating structured PDF documents using Python, LaTeX, and AI-powered content generation.
  - Worked with journal-specific templates and formatting requirements for automated PDF generation.
  - Identified and resolved layout issues including unwanted blank pages, excessive whitespace, and inconsistent page breaks.
- **Email Scraping** *2026*
  Tech Stack: Python, Requests, BeautifulSoup, Regular Expressions, Pandas [ ]
  - Developed an email-scraping application for extracting email addresses and relevant information from web pages and online sources.
  - Implemented automated data extraction, cleaning, parsing, and structured storage using Python.
  - Used regular expressions and Pandas to identify, organize, and process extracted email data.
- **Face Recognition System using Machine Learning** *Jan 2024*
  Tech Stack: OpenCV, CNN, SVM, FaceNet [ ]
  - Built a real-time face recognition system using computer vision and machine-learning techniques for recognition and real-time image processing.

Technical Skills

Programming:	Python, Java(Basic), SQL
AI / ML:	Machine Learning, Deep Learning, Generative AI, CNN, SVM, FaceNet, OpenCV
PDF Processing:	LaTeX, PDF Generation, PDF Processing, Bulk PDF Generation
Email Scraping:	Web Scraping, Email Extraction, BeautifulSoup, Regular Expressions, Data Parsing
Data Processing:	Pandas, NumPy, Data Parsing, Regular Expressions
APIs:	REST APIs, API Integration
Databases:	MySQL, Supabase
Web:	HTML5, CSS3, JavaScript, Bootstrap
Cloud / MLOps:	AWS, MLOps
Tools:	Git, GitHub, Linux, Streamlit, Excel, Power BI, Figma, Canva, Claude, Antigravity
Soft Skills:	Communication, Teamwork, Leadership, Problem Solving, Growth Mindset

Leadership Experience

Public and Outreach Head - Club64, MLRITM *2023 – 2026*

- Hosted formal and informal sessions, acted as MC, and led on-stage event coordination and outreach, supporting club visibility and audience engagement.

Certifications

- Certified System Administrator – ServiceNow
- ServiceNow – Micro Certification
- Java, Python, SQL – HackerRank
- Python – Infosys Springboard
- Deep Learning – CITD, MSME
- Job Simulation – AWS, Walmart, Accenture
- Data Analytics Simulation – Deloitte, Tata, Accenture
- Gen AI Simulation – BCGx
